THINGS TO LOVE ABOUT CENTRAL
SINCE 1853
A Once in a Generation Opportunity
by Mark Putnam, Central College president

The 2015 women's softball team's seniors walked together at commencement, fresh off a tournament game played on campus.

As I walk the campus I remain ever mindful of the legacy I hold as the 21st president of Central College. The Central presidency is best understood as a trust that demands stewardship to honor tradition and leadership to pursue innovation. Our history includes periods of aggressive growth and expansion, as well as times of reflection and renewal. An institution that is 163 years old will invariably have many stories to tell.

The legacy of intercollegiate athletics is one of our important stories. When President Emeritus Ken Weller first penned the words “student-athlete” more than 40 years ago, he established the enduring foundation for the philosophy that guides the NCAA Division III to this day. Though we constantly feel the gradual pull of professionalization and the influence of money in college sports, we continue to be anchored by our commitment to an educational emphasis that places the role of student ahead of athlete.

At its best, intercollegiate athletics is a form of experiential learning. Students are placed in a practice setting in which they learn to work in teams, exercise leadership, overcome adversity, manage conflict and become more resilient. So many of our alumni point to these experiences as being instrumental in their overall development.

We recently announced a new initiative that embraces our legacy of a healthy athletics tradition, with the innovations necessary for continued success. The program is aptly named, Forever Dutch. I love these words. They point to an enduring quality we honor in our history and a character that is uniquely ours. We don’t do things the way others do. We set our own course. Our academic community is willing to try new things and embrace change, as long as we do not lose our identity in the process.

Forever Dutch involves the expansion and renewal of our athletics complex, but if it were only about a building and fields, we would be much less inspired. The spaces we provide for our student-athletes and coaches are an extension of our learning enterprise and help us form lifelong relationships and build community. This is much more than a game changer. This is a life changer.

Many of our alumni tell me stories of how their lives were shaped by participation in athletics. We bear a special responsibility for making sure this experience continues.

The P.H. Kuyper Gymnasium is a facility that has served us ably for 45 years. If ever a building was expected to fulfill more than its original promise, it is this one. I look back at the bold commitment of administrative, faculty, trustee and alumni leaders who stepped forward to accept a challenge to build an athletics facility for the future. The ambitions for that generation have been fulfilled. Now the long arc of time is reaching for us to step forward to preserve a commitment and extend a promise for today and for the generations to come.

4 ATHLETIC UPDATES

25 ALUMNI NEWSNOTES

33 PARTING SHOT

CIVITAS.CENTRAL.EDU
641.628.9000
Public policy and improvisational theater collided in The Theater of Public Policy and Adam Mason’s residency at Central. The Minneapolis troupe of actors interviewed Mason ’02, state policy organizing director at Iowa Citizens for Community Improvement, and interpreted sustainability topics through improv performances. Both guests also led workshops for Central and Pella High School students.

The residency was made possible by the Thomas J. and Charlene P. Gaard Endowed Residency in the Liberal Arts. This signature residency is intended to benefit Central College students, faculty, staff and the Pella community. It allows Central to host notable visitors on campus for multi-day residencies that reflect Central’s liberal arts emphasis, enhance students’ education and enable meaningful and up-close exchanges with experts. This presentation was also supported by the Arts Midwest Touring Fund.

March 21-23, the illustrious American Shakespeare Center comes to Central through the Thomas J. and Charlene P. Gaard Endowed Residency in the Liberal Arts. “Julius Caesar,” “Henry V” and “The Importance of Being Earnest” will be performed.
GEISLER LIBRARY RENOVATED

Throughout the fall, Geisler Library’s second floor was renovated for better function, aesthetics and student collaboration. Construction opened the floor plan to increase light and student traffic — and made room for the Media Center, new offices and three new instructional areas.

“The Geisler Library has always been about how we serve students,” says director Beth McMahon. “Modern libraries need to be a place for people, not for stuff.”

The first people students see in the library will be librarians, McMahon says — their offices are now front and center. Students shouldn’t have to wonder who can help, and librarians shouldn’t just put materials in front of them, she says. Instead, students should immediately find people interested in them and what they’re doing.

McMahon says Geisler’s changes will help encourage relationships between students, faculty and staff, and connect students to important resources and services, including research assistants, writing support, tutoring, media services and more. Plus, everyone can enjoy the updated look. “We tried to jazz the place up a little bit,” says McMahon.

’71 CLASS ENDOWS SCHOLARSHIP

Members of Central’s 1971 class, led by John Grieco and Jim Coddington, have provided funding to permanently endow the Class of 1971 Scholarship. When the classmates returned for their 40th class reunion at Homecoming 2011, they noted another class had created a scholarship and thought it would be a good idea to follow suit. Grieco and Coddington immediately contacted a group of ’71 alumni who became the steering committee to help secure the funding.

“Jim and I both believe that leaving a legacy at Central is important, and we are very proud that we were able to help make it happen,” says Grieco. “We are hopeful it will inspire other classes to do the same.”

HAPPY BIRTHDAY, DR. WELLER

On November 17, we surprised former president Ken Weller to celebrate his 90th birthday. A crowd of Central family presented a large box filled with birthday cards from alumni and friends (Dr. Weller’s birthday was November 22).

Dr. Weller led Central 1969-1990, authored the Division III philosophy and helped bring women’s athletics into the NCAA. He lives in Pella, is active in Second Reformed Church and travels across the U.S. for Central athletic events.

BOARD ROOM NAMED

Graham Annex board room has been named the Rankin Nakahara Board Room in honor of longtime Central supporters Dr. William (Bill) L. Rankin ’69 and Lori F. Nakahara, his wife. The announcement was made at the Central College board of trustees meeting this fall. Rankin became a member of the board of trustees last spring.

Rankin studied psychology at Central, served in the military and received his Ph.D. in experimental psychology from Washington State University in 1976. He worked for Battelle Seattle Research Centers and Boeing before starting his consulting firm.
CENTRAL RETURNS TO NCAA MEN’S CROSS COUNTRY MEET

Racing to its fourth consecutive appearance in the NCAA Division III national meet, the Central men’s cross country squad placed 25th in the U.S.

Senior Cole Decker received all-America distinction by finishing 28th. He was also named the Central Region athlete of the year after winning the NCAA regional meet staged on Central’s on-campus course Nov. 14.

Central was second at the 29-team regional meet, just ahead of Loras College, which edged the Dutch for the league title at Dubuque Oct. 31. Decker, junior Isaac Steffensmeier and sophomore Tanner Rathje earned all-conference honors.

The Dutch women were fourth in the league and 16th at the 30-team regional meet. Sophomore Holly McKinney was 14th at the conference meet, but surged to 13th in a 205-runner field at the regional.

FUTURE BRIGHT FOR YOUNG FOOTBALL SQUAD

Flashing promise for the program’s future, a youthful Central football team rallied for a 6-4 record.

There were just 12 seniors on the roster, Central’s smallest senior class since 1994. Yet there were numerous young standouts, including record-setting sophomore wide receiver Sam Markham, who broke the season mark for receptions with 69 for 980 yards. He’s already fourth in career receptions (121) and eighth in career yards (1,630).

Eight players were named to the all-Iowa Conference team. Markham, sophomore defensive lineman Corbin Blythe, junior defensive back Zach Matter and junior kicker Aaron Marcellus were each first-team picks.

WOMEN SECOND IN GOLF

Freshman Brittany Coppess, sophomore Christine Ausman and sophomore Ciera Pulse earned all-Iowa Conference distinction in propelling the Central women’s golf team to a second-place league finish.

Coppess placed fifth at 80-77-82-87—326 in the tourney played at Pheasant Ridge Golf Course in Cedar Falls and Thunder Hills Country Club in Dubuque. Ausman took seventh and Pulse was ninth.

Central shot 326-326-352-332—1336. Wartburg repeated as champion with 1248 and Luther was third at 1389.

LUNARDI WINS WOMEN’S SOCCER HONOR

Central junior goalkeeper Sydney Lunardi received third-team all-North Region recognition for a youthful Dutch women’s soccer squad.

At 9-6-2 overall, Central was 3-2-2 in Iowa Conference play, taking fifth place. Lunardi, a two-time league defensive player of the week, freshman midfielder Lauryn Kramer and junior forward Kayla Sunvold were named second-team all-conference. Central had just two seniors on its roster.

FOURTH STRAIGHT ALL-LEAGUE WOMEN’S TENNIS AWARD FOR ALLGOOD

Central seniors Angie Allgood and Megan Davis each received all-conference women’s tennis recognition in both singles and doubles.

Allgood was cited in singles for the fourth time. She posted a 7-5 record at No. 1 singles and has a 45-22 career record. Allgood and Davis were all-conference in doubles for the third straight year, going 9-5 at the No. 1 spot.

The Dutch were 7-2 overall and 5-2 in league matches, placing third.

MEN’S SOCCER SQUAD BUMPED FROM LEAGUE TOURNAMENT

Central lost a tiebreaker and missed the conference men’s soccer tournament for
the first time since 2001.

The Dutch, 4-13 overall and 1-6 in the league, tied for sixth place.

Yet coach Garry Laidlaw is excited about the program’s future, with nine returning starters, including the team’s top scorers, sophomores Bryce Leonard and Salvador Villanueva.

**YOUNG VOLLEYBALL TEAM SHOWS PROMISE**

There was cause for enthusiasm despite some inconsistency from a young Central volleyball squad.

Losing senior right-side hitter Emily Stoakes to injury for most of the year, was a preseason setback. With middle hitter Hannah Laflin as the only other senior on the roster, Central relied on its underclassmen in a 15-18 campaign. But sophomore middle hitters Jenna Dille and Emily McDonald signaled that brighter days are ahead. Dille boasted a team-high .307 attack percentage while McDonald was tops in kills (1.75 per set) and blocks (0.75). Freshman setter Madison Egger averaged 5.01 assists.

**CENTRAL’S WASSENAAR WINS NATIONAL HONOR**

Central senior tight end Jake Wassenaar took the field at the Allstate Sugar Bowl in New Orleans Jan. 1 as a member of the Allstate American Football Coaches Association Good Works Team.

Wassenaar was among just six Division III players chosen for the 22-man squad.

The players were cited for their volunteer service work. It’s the fourth time a Central player was tabbed for the elite squad since the program’s launch in 1997.

An elementary education major with a 3.92 grade point average, Wassenaar is deeply involved with The Raining Season, an organization supporting orphaned children in Sierra Leone. He’s also part of Central’s Fellowship of Christian Athletes leadership team, has participated in a pair of two-week service trips to south Texas with Central’s Campus Ministries program and helped teach English to Burmese refugees in Des Moines.

**DE WAARD LEAVING CENTRAL FOOTBALL SIDELINE**

As passionate as he was successful, defensive coordinator Don De Waard ’82 is giving up his position on the Central College football staff after an unrivaled 35-year career.

A staple on the Central sidelines, De Waard prodded Dutch defenses to victory in 302 of 377 games during his tenure. If he were a head coach, he’d rank No. 1 in the U.S. among active coaches on the NCAA college and university wins list, and 11th all-time. His .801 victory percentage would be seventh among active Division III coaches. He’s been part of 18 Iowa Conference championships, 18 NCAA Division III playoff appearances, 19 playoff victories and two appearances in the NCAA title game at the Amos Alonzo Stagg Bowl.

In 2000, the American Football Coaches Association named De Waard the Division III assistant coach of the year.

“I don’t like talking about retiring from it, because that indicates this was a job,” said De Waard, who also served as linebackers coach. “It never was. This was all about the relationships I was able to have with the players and coaches.”

De Waard will still continue to coach in the annual Tazon de Estrellas (Bowl of the Stars), played this year in Baja, Mexico Dec. 19. De Waard served as head coach for the fourth time for Team Stars and Stripes, a 50-player squad of NCAA Division III seniors nominated by head coaches. De Waard led a Central contingent that included seniors Cael Halfman, Jake Wassenaar, Dustin Smith and Nick Watson as well as athletic training education director John Roslien, the U.S. team’s player personnel director, and head athletic trainer Frank Neu. The team defeated a squad of top Mexican college players, 15-14.
163 YEARS IS A LONG TIME.

Since Central’s founding in 1853, there have been many “favorite things” on campus. Favorite foods, traditions, people, buildings, activities and programs. In reality, there are too many to count. Here, in no particular order, is a selection of 53 of our favorite things about Central. We know we’ve left out a lot, so if we’ve missed your favorite, drop us a note via social media or email.
GENNIS
Gorgeous weather always brings out gennis players at Central. Watch where you hit, though—the pond is surprisingly chilly! Known elsewhere as “urban golf” or “campus golf,” gennis is played with golf clubs and tennis balls. Adam Jackson ’05 mapped Central’s original course in 2004—he and friends from West Mains got hooked on the game.

“IT DIDN’T REQUIRE A FULL SET OF CLUBS OR A WHOLE LOT OF SKILL — JUST A LOT OF GOOD TIMES WITH FRIENDS.”

HAROLD & MAVIS
Officially named “The Quest” and “The Journey” the statues of a man reading and a woman carrying books were placed on the Peace Mall in honor of Harold and Mavis Geisler, champions of Central and major contributors to our efforts.

CARAMEL BARS
Sweet, gooey, slightly crunchy, they’re a favorite at Central Market and campus events.
STUDY ABROAD

#5 THE POND

Derisively tagged Lubbers’ Lagoon by cynics skeptical of President Don Lubbers’ mid-1960s campus design scheme, the pond has become a Central icon.

#6 HELLO, MY NAME IS

The President’s First-Year Picnic is a tradition where new students meet and mingle with each other and Central’s president in a casual atmosphere.

#7 GEESE

Watch out, they bite.

#8 PIETENPOL CUP

Popular in the 1950s through the ‘80s and named for its creator, Dean Henry Pietenpol, this competition between freshmen and sophomore women required original musical numbers, complete with elaborate performances.

Since 1965, students have packed their bags and headed off to study in the midst of another culture.
DINNER ON US
During students’ first weekend on campus, they’re invited to dinner with faculty, staff and alumni. In small groups, they learn firsthand what it means to belong to the Central family. Some hosts make students welcome in their homes, serving a meal with their families. Others stretch the limits of creativity, inviting students to picnic on the roof of the Roe Center, play mini-golf in the library stacks or dine in a grocery store after hours. It’s a special night that makes Central more like home — even before classes start. Students always come back saying, “That was so much fun!”

FEEL THE RHYTHM
Flying Pans Steel Drum Band, under the direction of Stan Dahl, is always up to something new, such as its Halloween concert “Zombie Steel.”

“May your glory never die!”
Singing “CUI” after a win is a recent, but cherished football tradition, started in 2004.
#12

GOING GREEN
We’re committed to sustainability, and our campus features multiple LEED (Leadership in Energy and Environmental Design)-certified buildings, including a platinum LEED rating for the Roe Center in 2010.

#13

BREAKFAST OF CHAMPIONS
What’s better the night before finals than doughnuts at midnight, served by faculty and staff?

#14

BKE BALL RUN
In 1971, the BKE (Beta Kappa Epsilon) and Phi Delt (Phi Delta Theta) fraternities hatched a plan to run a football from Pella to Oskaloosa for the game against William Penn. Led by students Tom Summit and Scott “Scooter” Caldwell ’75, they painted a football red and white, and a group of 32 guys each ran a half mile. The Marion County Sheriff helped clear the road, and a police escort led them through Oskaloosa to the stadium, where they handed off the ball to quarterback Chris Nelson, to the cheers of Central fans.
Our newest major is making quite a splash, with high interest among incoming students.

The old acronym for Central University of Iowa Food Service (CUIFS) simply won’t die as a way to refer to Central Market.

100 full-time faculty are the beating heart of Central. With scores of book and journal publications among them, they rank as leading experts in fields as diverse as prairie ecology, sports analytics and Shakespeare.

The old Graham Dining Hall is remembered for monthly steak nights on Wednesdays. While it may not have been filet mignon, the steak was considered quite a treat. But no second helpings on steak night!
Central’s phone booth was a present from Dubuque insurance firm Cottingham & Butler. John Butler, now CEO, was impressed by Central’s international programs and presented the London icon as a gift. It’s a favorite for campus photos ever since.

Open since 1974, George’s, a family-owned business, has long been feeding students and their families for pizza nights.

Our top scholars bond through special seminars, and their work culminates in senior honors theses.

Since 1916, we’ve enjoyed an important affiliation with the Reformed Church in America.

The A Cappella Choir’s benediction at the end of a concert still gives us goose bumps.
SERVICE
Serving others is a Central tradition, carried out through an annual Service Day, service-learning within classes and many more opportunities. Last year, Central students engaged in 71,850 community service hours.

TOTAL COMMUNITY SERVICE HOURS

71,850
2015
Meaningful research opportunities—and partnerships with professors—are available in every major at Central. Our most recent Bosch Undergraduate Summer Research Fellows investigated not only biology, chemistry and psychology topics (which always emphasize research), but also history, theatre, Greek and sustainability. Jim Shriver, associate dean for curriculum and faculty development, says Central’s breadth of research has increased dramatically in the last 15 years.

“WE HAVE PEOPLE WORKING ALL OVER THE PLACE,” SHRIVER SAYS. “THERE’S GOOD DIVERSITY.”

More students are participating than ever, too.

THE TUNDRA
Before Weller Center for Business and International Studies was built, the grassy space at the intersection of Independence and W. Third St. served as a prime spot for snowman building and snowball throwing.

MMM, ALMOND PASTE
Dutch Letters are a treat that tastes like home to Central alumni.

ORGANIC GARDEN
Recently expanded, the garden provides learning opportunities as well as produce to feed students!
CENTRAL FAMILY
Whether you’re a student, graduate, faculty or staff member, community partner, parent or friend, you are a valued part of the Central family.

LEMMING RACE
Suit up in your craziest costume and follow the Grand Lemming to the pond.
Hundreds of grads have been inspired, sweated, wrestled with molten glass and — finally! — created art in Central’s John Vruwink Glassblowing Studio. It’s a 40-year feature on campus, created in 1975. Today, the space is unrecognizable from Central’s first “studio” in the courtyard behind Lubbers. The first studio was built in a week after a traveling glassblower demonstrated his work on Peace Mall. Central leaders approved $1,000 for a two-week class, with the condition that any Central student could participate. At that time, professor of art John Vruwink ’58 didn’t have any more glass training than students. But Central’s primitive studio, with equipment built from scrap metal and a garden hose, was a success. Significant updates came in 1986 and 2011 — and classes are still available to any student.
Many alums remember this charismatic animal that lived at the De Haan Farm, across the street from Kruidenier Center. Since 2013, the brand has been the official outfitter of the Dutch, and we’re the first Iowa college or university to become an Under Armour school.

Central has had 21 different presidents. Each one left his mark on the institution.

Many alums remember this charismatic animal that lived at the De Haan Farm, across the street from Kruidenier Center.

Since 2013, the brand has been the official outfitter of the Dutch, and we’re the first Iowa college or university to become an Under Armour school.

The original bridge, based on a Japanese design, was built in 1967 and was known for years as “Lubber’s Leap.” The new bridge, made of steel and concrete and installed in 2004, was designed to be safer and less slippery than the previous version.
CENTRAL MARKET
Whether it’s fresh-cookie Tuesday, ice-cream sundae Wednesday, or any other day of the week, the Market is cooking up delicious food with local ingredients.

SPRING FLING
It’s boat races. It’s Lip Sync Contest. It’s a tradition to welcome spring with a few days of revelry.

THAT SWEET SOUND
Officially Vocal/Instrumental Jazz and Pop Combo, and known as “combos,” these groups of piano, bass, drum, guitar and vocal students perform music of various styles.

DUTCH ATHLETICS
Our long tradition of athletic excellence includes 11 NCAA championships. Who could forget moments like Emilie Hanson Brown’s (’95) 1993 rebound shot to clinch the NCAA Division III women’s basketball semifinal? Or the 1974 win at the NCAA Division III Football Championship after holding off the Ithaca offense at the goal line? And let’s not forget the coaches — since 1974 Central coaches have been honored 132 times as Iowa Conference Coach of the Year. Hoo-rah!

DISTINGUISHED SCHOLARSHIPS
We recognize academic success! Our most prestigious scholarships are awarded to students with outstanding academic profiles who demonstrate potential for future success.
**FROSH-SOPH PULL**
Held each fall, the competition allowed underclassmen male to test their strength with tug-of-war. The losing team got dumped in Vermeer Pond!

**FALL DRAMATICS**
The homecoming theater production is an annual tradition. This fall students presented “The School for Husbands,” a comedy by Molière.

**GATHERING PLACE**
Maytag Student Center provides a warm and comfortable place for students to come together for study, conversation and fun.

**THE HOLLAND THEATER**
Pella’s former movie theater, the Holland, was managed for years by Central. For $30, students could buy a SUAP (Student Union Activities Pass) to see every movie that came to town. Central recently returned to the theater business by assuming managerial responsibility for the Pella Cinema.
As one of the six founding colleges of the Chicago Semester program, Central has been sending students to work and study in the urban setting since 1974.

The railroad track that ran through campus is remembered by many former students. The train provided plenty of students with excuses for being late to class.

Said to have instigated many marriages, Sadie Hawkins dances were popular on campuses across the country in the 1940s and ’50s. Women invited men to the dances, which were named after a character from the comic strip “Li’l Abner.”
LAKE RED ROCK
Just minutes away, the lake has provided generations of students a place to swim, cook out and enjoy nature.

FLOWER POWER
Tulip Time is a chance to sample some poffertjes, try Dutch dancing and — if you’re a student — wave to tourists as they take wagon tours past campus. Student clubs and teams work hard selling treats at their food stands.

GRADUATION
You made it! It’s the day we say hello to the future, but we never say goodbye to Central.
The next phase in a major facilities upgrade at Central College’s A.N. Kuyper Athletics Complex was announced at a campus celebration Jan. 30.

Project costs will exceed $15 million for the initial phases of Forever Dutch, a long-range athletics facilities initiative that began with outdoor field improvements over the past two years. An expansion of P.H. Kuyper Gymnasium is a major component of the next phase, to be followed by a renovation of the existing interior of the building, constructed in 1969. P.H. Kuyper Gymnasium was the first component of the 115-acre A.N. Kuyper Athletics Complex. Additional initiative details can be accessed via the Forever Dutch website at forever.central.edu.

Phase One provided for enhancements of outdoor athletics facilities and is largely completed. Included were improvements at the college’s baseball, soccer and softball fields as well as spectator areas at Ron and Joyce Schipper Stadium, which now features a new main entrance, Heritage Plaza. The Kuyper Gymnasium expansion, part of Phase Two, will be more dramatic. A new south-side entrance will extend towards Independence Street, eliminating the outdoor staircase to improve accessibility. It will include an expansive lobby, a new second-floor atrium and a home for Central’s Athletics Hall of Honor. The building will also expand to the west. The new
construction will feature a large varsity locker room on the lower level and, on the upper level, a new wrestling room more than double the size of the current wrestling room to accommodate growing rosters. The current wrestling room will be converted to house hitting cages for softball, baseball and men’s and women’s golf.

The expansion will also include gradual replacement of aging and overtaxed infrastructure in the 45-year-old facility. Groundbreaking is anticipated later this year.

Work will then quickly transition to the other component of Phase Two, the Kuyper Gymnasium renovation. The renovation will likely include additional locker room space, an expanded athletic training room, a new team meeting room, recruitment space and staff offices. Additional projects expanding practice/competition facilities could follow.

Kuyper Gymnasium’s construction in 1969 helped launch Central’s athletics program in its spectacular rise as an NCAA Division III juggernaut. Prior to 1969, the Dutch had claimed 16 Iowa Conference titles with four All-America awards. Since then, Central has captured 11 NCAA national team championships, 152 conference titles, 32 individual NCAA crowns and 413 all-America awards. Central student-athletes have also received 21 NCAA postgraduate scholarships and 52 CoSIDA Academic All-America awards, all since 1969.

Central is a model Division III program and, in fact, president emeritus Ken Weller, who was in office when Kuyper Gymnasium was constructed, authored the original Division III philosophy.

“We are deeply indebted to Central’s 1960s leaders for the keen foresight they displayed in constructing P.H. Kuyper Gymnasium,” said Central president Mark Putnam. “For more than 45 years it has ably served a generation of students, coaches and staff who have authored a record of achievement far beyond what any could have even dreamed.”

But he noted that the Dutch program has outgrown the aging building, which was constructed for an eight-sport men’s program with about 200 athletes. It now must serve a 19-sport men’s and women’s athletics program with 723 athletes in the past year. Team practices start as early as 5 a.m. and can run past 11 p.m. and the facilities receive heavy use by other students for intramurals and recreation. More than 94 percent of Central’s students use it regularly. In addition, some 2,000 junior high and high school students used Central’s athletics facilities last year for summer camps as well as off-season clinics. Ignoring the building’s pressing needs is not an option.

WE ARE SO EXCITED AND BLESSED THAT FOREVER DUTCH WILL ALLOW US TO CONTINUE MAKING SUCH A TRANSFORMATIONAL IMPACT ON STUDENTS’ LIVES.”

—ERIC VAN KLEY, ATHLETICS DIRECTOR
“This is the No. 1 priority of the college,” Putnam said, noting that the initiative was unanimously supported by the college’s board of trustees.

A 13-person steering committee that includes trustees and alumni is assisting college officials with planning and leadership for Forever Dutch. Pete Cartwright ’82, Dennis Hanson ’07H and Molly Parrott ’02 serve as tri-chairs. Other committee members include Ann (Van Hemert) Allen ’00, Mike Dahlhauser ’94, Jim Danks ’64, Vern Den Herder ’71, John Edwards ’72, Tom Koos ’86, Marc Poortinga ’98, Steve Sikkink ’83, Harry Smith ’73 and Raegan Schultz Wagner ’04.

Athletics director Eric Van Kley said the Dutch coaching staff is thrilled.

“Incredible people are what make the Central athletics tradition special, not bricks and mortar,” he said. “But we’ve simply outgrown facilities that were designed to accommodate 200 athletes when we now have more than 700. We are so excited and blessed that Forever Dutch will allow us to continue making such a transformational impact on students’ lives.”

Enthusiasm for Forever Dutch in fundraising efforts during the initiative’s quiet phase has been overwhelming, Putnam said, with several alumni and friends pledging their largest personal gifts ever. But broad-based support is critical to the success of Forever Dutch in what he terms a defining moment in the life of the college.

Donald Hoekstra '67 has retired from the ministry and lives in Holland, Mich., with wife Patricia Carlson.

Curry Pikkaart '71 has retired after 41 years of pastoral ministry, having served churches in Sioux Center and three locations in Michigan: Holland, Kalamazoo and Grand Rapids. Curry and wife Barbara live in South Haven, Mich. In retirement, he will continue to minister part-time, write and enjoy travel with Barbara.

Milo Johnson '73 is a retired American Airlines captain living in Palo Cedro, Calif., with wife Jill.

Norm Northup '73 and Sharon Claes of Cedar Rapids were married Aug. 16. Norm is a retired teacher and coach. He continues to substitute teach in the Cedar Rapids area.

Alan Primus '73 of Wellsburg retired after 20 years teaching elementary school in Moravia. After leaving his teaching position, Alan managed a federal government grant for special needs children and earned a master’s degree in early childhood education from Morningside College. Seasonally, Alan drives a grain hopper for the elevator in Wellsburg.

Sue Brunscheen Cerwinske '74 was joined by six of her Sigma Sorority sisters in September for a weekend in Iowa. Shown (left to right) are: Peggy Barnes Smith '74 from Temecula, Calif., Gretchen Miller Klein '73 from Knoxville, Denise Gosiowski Smith '74 from Watermill, N.Y., Kim Evers Spreacker '73 from Pella, Jean Slingerland Brandt '74 from Luzeme, Lois Sorenson Boeyink '74 from Pella and Sue Brunscheen Cerwinske '74 from Otley. Sue is campus visit coordinator in the admission office at Central College. She and husband Tom Cerwinske '72 live in Otley.

Alan Van Zee '79 is director of music ministries at St. Michael and All Angels Episcopal Church in Lihue, Kauai, Hawaii, and lives in nearby Lawai. “About the same time I started my job at the church, I met another new staff member named Beth Debrey from nearby Kapaa, who works as church administrator. Some months later we discovered that we were fellow Midwesterners; myself from Iowa and she from nearby Rock Island, Ill. In further conversation, we discovered that Beth attended Central’s London program in 1977. It turns out I missed meeting my new co-worker by just two years, as I was hired by the college in 1979 to be London Residence Director, where I remained until 1984. We both lived at 7 Bedford Place two years apart.”

SAVE THE DATE! | APRIL 29

Watch for details on how you can be part of the Big Red FIVE! So easy, everyone can do it!
Ryan McGowan ’02 found his sweet spot working in the field of human resources. At Sports Authority’s corporate headquarters in Denver, McGowan’s day job as director of organizational development and learning means he empowers 15,000 employees to find their niche in 470+ store locations across the country.

The Urbandale native majored in elementary education and after graduation, joined Intermountain AmeriCorps to teach K-6 environmental education. He joined Sports Authority in 2012, after earning his MBA at the University of Denver. Today he leads a team of 11 to develop the strengths of every individual in the organization.

Q: How do you promote a strong corporate culture, to get employees to literally “wear the brand”?
A: Today’s workplace generation wants to know ‘Am I going to have fun? Will I have work/life balance?’ so we have to create a work environment where people thrive and have a good sense of well-being in all aspects of their life — physical, mental, spiritual, emotional, financial. All of this is anchored in continuous learning. It’s also anchored in building a highly effective leadership team through executive coaching — raising leaders’ ability to impact profitability while also influencing employee motivation and morale.

In our business, it’s very important to have a sense of well-being; very important to get out and enjoy all sports. We empower play for all so we try to help employees see that it’s a value proposition — that how we invest in employees makes a stronger organization.

It’s challenging to make an emotional connection with 15,000 people across multiple locations. It’s not so much how we do it, but why we do it — why we promote healthy lifestyles and sportsmanship; why we want to instill a sense of joy for sport, not just competition; why we want employees to overcome obstacles and be empowered to be better people at work and at home.
THE '00s

For information about Jenny Kettler Schmidt '03 and Kerry Van Hemert '09, see The Class of '15, Where are They Now?

Jenny Kettler Schmidt '03 is pastor at Good Shepherd Presbyterian Church in Wayzata, Minn. Jenny and husband Kristin Rutledge of Des Moines were married Oct. 19, 2013. Chad is human resources representative at Anderson-Erickson Dairy Co., in Des Moines.

Naomi Greells-Mattos '01 was promoted to coordinator for international student services and principal designated school official at Metropolitan Community College. She competed in the State Games of America in figure skating and earned three first-place finishes in adult pre-bronze events and fourth place in an adult bronze event. Naomi and husband Stephen live in Omaha.

Tom Morrison '03 is sales manager for large area lighting at Musco Sports Lighting in Oskaloosa, where he lives with wife Jessica Riches Morrison '04 and their two sons.

Jeanne Schooley Clark '04 is instructional coach at Oskaloosa High School. Jeanne and husband Michael live in New Sharon with their two sons.

Beth Cunningham '05 and Mitch Jansen of Davenport were married Sept. 19. Beth is assistant track and field coach at St. Ambrose University.

Ashley Wendt McFarland '05 is research director at Michigan State University in Chatham. Ashley and husband James live in Munising with their daughter.

Kelli Debeer Stravers '05 is variable annuity full of art and encouragement. Kelli and husband Justin live in Grimes with their two children.

Jacquelyn Johnson Duke '06 is president at Intrinsic Birthing LLC, a certified childbirth educator, labor doula and labor doula faculty, and a certified placenta encapsulationist with International Placenta and Postpartum Association. Jacquelyn and husband Jason live in Ankeny with their two daughters.

Allison Schafer '06 and Emmanuel Ambane of Virginia Beach, Va., were married Oct. 17. Allison is international student ministry staff member with InterVarsity Christian Fellowship.

Heidi Rathje Williams '06 is senior accountant at Aegon USA in Cedar Rapids. Heidi and husband Jacob live in Newhall with their two children.

Dawn Nissen '07 and Janet Hutchings of Seattle, Wash., were married Aug. 9, 2014. Dawn is program manager of workplace violence at Amazon.com.

THE '10s

For information about Jacob Brueck '10, John Roloff '10 and Amanda Scott '10, see the '00s.

For information about Keith Rush '13 and Rachel Boertje '14, Jodi Landt '14, Mariah Brammer '14, Kelsey Howard Van Hemert '12, Kerry Van Hemert '09, Stephani Wickett '11, Jeff Knouse '16, Tate Offenburger '14, Heidi Schulze '14, Jordan Judkins '14, Alan McCleery '14, Sean Prihoda '14, and Tim Wilson '14, see The Class of '15, Where are They Now?

John Roloff '10 was named director of operations with the Milwaukee Symphony in Milwaukee Wis. Previously John was in the same role with the Des Moines Symphony.

Rachel Staman '11 and Alan Meijbovsky of Baltimore, Md., were married Sept. 6. Rachel teaches fifth grade at Garrison Forest School in Owings Mills.

Kathryn Bruxvoort '12 and Matthew Deugan of Bondurant were married Sept. 12. Kathryn is quality assurance analyst at Nationwide Insurance.

Chelsea Grieger Toppin '12 is office manager at Locke Funeral Services in Cedar Falls, where she lives with husband Curt Toppin '11 and their son. Curt is software analyst at Overland Conveyer.

Anna Higgins '13 is assistant athletic trainer at Fort Lewis College in Durango, Colo.

Jill Hite '13 and Cody Schuring of Pella were married Sept. 26. Jill teaches kindergarten through fifth grade special education in the Lynnville Sully Community School District.

Adam Ledvina '13 is natural resources aide for the Iowa Department of Natural Resources in Monroe.

Emma Putnam '13 of Brookline, Mass., is co-op intern in the photo department of the Boston Globe. Emma is pursuing an undergraduate degree in media art with a concentration in photography at Northeastern University.

Tia Dupont '14 of Mankato, Minn., is G.A. fitness wellness director at South Central College in North Mankato.

Emily Hutchison '14 of Martinsdale is hair and makeup artist at Smart Style in West Des Moines.

Justin Livingston '14 of Des Moines is a certified personal coach at GolTEC.

CLASS OF 2015 WHERE ARE THEY NOW?

Amy Andrews is outreach coordinator at Cedar Falls Food Co-op in Cedar Falls.

Samuel Apland is patient care technician at Pella Regional Health Center in Pella.

Callie Aunan is post issue representative at MetLife in West Des Moines.

Kaitlyn Baetsle teaches special education in the Des Moines Public School System.

Schyler Bardole is production supervisor at Smithfield Farmland.

Elizabeth Bauman is a teller at Community 1st Credit Union in Centerville.

Taylor Beckman is working toward a doctor of pharmacy degree at Texas Tech School of Pharmacy in Amarillo.

Emily Benson teaches second grade at St. Luke the Evangelist Catholic School in Ankeny.

Jesiah Blauw is a financial advisor at Edward Jones in San Antonio, Texas.

Theodore Boehne is pursuing a degree in museum studies at Western Illinois University at the Quad Cities in Rock Island.

Brendon Boerm is working toward a doctor of dental surgery degree at the University of Iowa College of Dentistry.

Jordan Bohr of Pella is online communications specialist at Central College.

Austin Boldt is working toward a degree in veterinary technology at Harcum College in Bryn Mawr, Pa.

Ethan Bonde is driver manager at CRST in Cedar Rapids.

Justin Bown is investment operations associate at Principal Financial Group in Des Moines.

Rachel Braak is programs coordinator at the Science Center of Iowa in Des Moines.

Ethan Brandt is officer manager at Barton Solvents in Des Moines.

Jordan Burns is a police officer with the Sioux City Police Department.

Breeann Buseman is assistant athletic trainer at Indian Hills Community College in Ottumwa.

Sarah Calderwood is a physical therapist assistant student at Indian Hills Community College in Ottumwa.

Katie Canney and Brian Fyfe of Des Moines were married Sept. 26. Katie teaches fourth grade in the Des Moines Public Schools and Brian is ABA specialist at The Homestead in Clive.

Grady Carson is rehab therapist at HealthSource of West Des Moines.

Adam Clark is GIS coordinator for Hamilton County in Webster City.

Brittany Clark is teaching assistant at La Petite Academy in Cedar Rapids.
Kaylee Clark teaches special education at Columbus Elementary School in Chariton.

Carson Claypool is credit analyst at First National Bank in Pierre, S.D.

Shelby Coen is working toward a master’s degree in social sciences from Arizona State University in Tempe.

Landon Coker of West Des Moines is personal trainer at Lifetime Fitness Trainers Inc. in Urbandale.

Ryan Collins is accounting operations specialist at TCF Equipment Finance in Waterloo.

Shannon Coulson is research associate in tumor immunology at NewLink Genetics in Ames.

Trevor Curry is athletic trainer at Physiotherapy Associates in Des Moines.

Clayton Curwin is financial advisor assistant at United Investment Group in Faribault, Minn.

Annette Dean is working toward a master of sciences degree from the University of Wisconsin in Madison.

Doris Dingeman is IT asset manager at Pella Corp.

Rebekah Docter is outdoor education instructor at Covenant Heights in Estes Park, Colo.

Laura Draheim of West Des Moines is lab technician at DuPont Pioneer in Johnston.

Emily Drey teaches special education and instructional strategy at Camanche Elementary School in Camanche.

Emily Eberhardt is working toward a master’s degree in education from Buena Vista University in Storm Lake.

Aaron Eiseler is Midwest field applications engineer at Precision Pulley & Idler in Pella.

Rachel Evans is working toward a master’s degree in health sciences at the University of Kentucky in Lexington.

Megan Flynn and Nana-Yaw Sapon-Amoah were married Aug. 8. Megan teaches elementary ELL in the Des Moines Public Schools and Yaw is assistant product manager at Briggs Corp. in Des Moines.

Jacob Forgie is environmental specialist at Iowa Department of Inspections and Appeals in Marshall County.

Dennis Forrest is studio assistant at TRAIINology Fitness and J at School JCC in Chicago.

Joshua Forst teaches math and coaches tennis at Downers Grove South High School in Downers Grove, Ill.

Blaine Forsythe and Morgan Sharp ’13 were married July 19, 2014. Blaine teaches sixth grade math in Pella Community School District.

Abby Foster teaches special education at Martinsdale-St. Mary’s Elementary School in Martinsdale.

Beth Foster is employed at the Henry Doorly Zoo in Omaha, Neb.

Rachel Frana is engineering technician for the City of Altoona.

Emily Friedricks is project assistant at WebSpec Design in Urbandale.

Brandon Fritz is athletic trainer at Ballenger Chiropractic in West Des Moines.

Aly Garwood is patient care coordinator at VGM Group in Waterloo.

Hannah Gettes is interim membership assistant at Clinton Area Chamber of Commerce in Clinton.

Jordan Gier is personal trainer at Midwest Athletic Club in Cedar Rapids.

Kaitlyn Gillett is working toward a master’s degree in physical, occupational and speech therapy from the University of Nebraska Medical Center in Omaha.

Shantell Gish teaches math at East High School in Des Moines.

Dana Gordon teaches kindergarten through fifth-grade special education at CAM School District in Anita.

Emily Grant is human resources intern at Hendrickson in Woodridge, Ill.

Sydney Gray and Jesse Slinkman of Clinton were married May 30. Sydney teaches first grade at Ekstrand Elementary School in DeWitt.

Matthew Guinan is personal trainer at Anytime Fitness in Pella.

Cody Gullett is outbound group leader at Target Corp. in Cedar Falls.

Brian Hadley of Pella is an associate technical analyst at Pella Corp.

Lauren Haseluhn teaches math at PCM High School in Monroe.

Zach Hendricks is certified athletic trainer at Physiotherapy Associates in Des Moines.

Isabelle Hicks of Alamo, Calif., is registered client services representative at Dudum Financial in Lafayette, Calif.

Kaitlyn Hilpipre is assistant manager at Hollister Co. and sales and marketing intern for the Iowa Cubs in Des Moines.

Grace Hirl is associate product specialist at Pella Corp.

Megan Hoehns teaches seventh grade special education for the Knoxville Community School District in Knoxville.

Andrew Holcomb is production scientist at Integrated DNA Technologies in Coralville.

Torie Hollingsworth is patient registrar at Pella Regional Health Center.

Lisa Houser teaches fourth grade at Oskaloosa Elementary School in Oskaloosa.

Grace Hove is employed at The Royal Amsterdam Hotel in Pella.

Ashlyn Huegel is pursuing a degree in nursing from Trinity College of Nursing in Rock Island, Ill.

Ashley Hulsing teaches high school math in the Brooklyn-Guernsey-Malcom Community School District in Brooklyn.

Michael Iseman is assistant men’s basketball coach at Central College.
Heath Jackson is working toward a medical degree from Kent State University College of Podiatric Medicine in Cleveland, Ohio.

Matthew James is account specialist at Schuring and Uitermarkt in Pella.

Brody Jansen is material testing technician and environmental scientist at Klingner and Associates in Hannibal, Mo.

Kate Johnson and Daniel Tiskevics ’16 of San Juan Capistrano Calif., were married Nov. 25, 2014. Kate is senior representative at Primerica and instructor at Studio Barre.

Amanda Kahl is working toward a master’s degree in public health at the University of Iowa.

Timothy Kahl is associate product specialist at Pella Corp.

Melissa Ketcham is software engineer at Williams Interactive in Cedar Falls.

Andrew Kleis is on staff at Wartburg College as an athletic trainer while pursuing a master’s degree in athletic training through A.T. Still University out of Mesa, Ariz.

Jacob Klopfenstein is secondary teacher at Abundant Life Christian Schools in La Union, Lempira, Honduras.

Gideon Kluge is detention officer at Marion County Sheriff’s Office in Knoxville.

Stephanie Koch teaches kindergarten at Foundations Academy in Brighton, Colo.

Hailey Koerselman is physical therapy aide at Sanford Hospital in Sheldon.

Emily Koontz is product support specialist with Informa Investment Solutions in Zephyr Cove, Nev.

Jessica Laflin is pool monitor at Mountain Park Ranch in Phoenix, Ariz.

Jodie Landt is campus intern for InterVarsity Christian Fellowship in Pella and Oskaloosa.

Jordan Langer is AmeriCorps VISTA at Central College and assistant tennis coach.

Lucas Lazenby of Fort Collins, Colo., is biological technician at the USDA-APHIS National Wildlife Research Center.

Christopher Lekwa is tier 1 tech support person at Holmes Murphy Financial Services in West Des Moines.

Brittany Lenth teaches sixth grade at Wapsie Valley Schools in Fairbank.

Rachel Lindhart is working toward a master’s degree in college student affairs from Eastern Illinois University in Charleston.

Justin Livingston is certified personal coach at GolfTEC in Clive.

Alicia Long is technician II at Boehringer Ingelheim Vetmedica Inc. in Fort Dodge.

Tyler Lowy is sales solution specialist at Heritage Lace in Pella.

Elaina Loyd teaches French at Cedar Falls High School in Cedar Falls.

Nicholas Lutsch is software development engineer at CMMS Data Group in Chicago.

Michael Mackin is marketing communications coordinator at Carrier Access, Inc. in Clive.

John Mainquist teaches fifth grade at Stanton Elementary School in Stanton.

Devin Mandi is police officer with Marshalltown Police Department.

Kaitlyn Matzen is human resources administrator at Winnebago Industries in Forest City.

Ashton Mayer is shift supervisor and assistant event coordinator at Cedar Ridge Vineyards and Distiller in Swisher.

Wes McLaren is cash control department manager at Adventureland Park in Altoona.

Brayton Meeker is management trainee at Enterprise Rent-A-Car in Pella.

Kyle and Jennifer Curt Luttgaharm '08, daughter Elaina Marie, March 31

Nicole and McKinley Steig '09, daughter Quinn Delaney, April 18, 2014

Matt and Chantelle Wilson Broome '10, daughter Leilani Noelle, Sept. 9

Curt '11 and Chelsea Grieger Toppin '12, son Miles Scott, July 23

Michael and Mara Venteicher Waistead '11, daughter Jessa Lynn, Sept. 25

GER T BEINTEMA

Gertrude Beintema passed away Sep. 16, 2015, at age 79. A New Jersey native, Beintema joined the Central staff in the development office in 1972 and worked at the college for 31 years. She moved to the athletics department in 1979 where she served as an assistant to then-athletics director Ron Schipper, secretary for the coaches, receptionist for the department and fill-in mother to countless athletes.

“Gert wasn’t a faculty member but she was an educator. She probably helped mold and shape some athletes as much as anyone on our campus.”

Beintema also served as ticket and business manager, banquet coordinator and travel director for Central’s 19 intercollegiate sports teams. She was among the first inductees to the Central Athletics Hall of Honor in 2003.

H AR O L D M OL E NAA R

Former Central trustee Harold Molenaar of Holland, Mich., passed away Nov. 13, 2015, at age 81. He served as a trustee from 1994 to 2004, and he and his wife Esther were given honorary degrees from Central in 2008 during homecoming celebrations. His son William attended Central, graduating in '84, which led to Molenaar’s deep involvement with the college. He was a major supporter for many years. Born in Kalamazoo, Mich., Molenaar earned his bachelor’s degree from Hope College in 1956. He was a long-time employee at USF Holland.
Doors Opening for Central Vocalist
Chris Weaver ’10 finds his music getting attention in NYC.
by Laura Billingsley ’04

Chris Weaver ’10 is having a pretty great 2016. So far, he’s landed a recording contract, performed at venues across New York City and had the chance to sing for one of his heroes. In early January, a friend invited him to a party, but kept the host a secret. He was standing at the bar, when his friend told him to turn around. “It was Jennifer Hudson!” Weaver says. His friend and Hudson were both performing in the musical “The Color Purple” on Broadway.

Later in the evening, Weaver had the chance to sing for Hudson. Things like this keep happening to Weaver, a native of Long Island who recently returned to his home state. Now living in New York City, he is exploring where his musical talent may lead him and finding quite a lot of success.

Weaver came to Central thanks to a little prodding from his godmother, who had known about the college for years and encouraged church members to visit. He visited and at first felt the difference from New York was too great. “When I first stepped on campus, it was definitely a ‘no,’” Weaver says. But by the time the day was over, and he had spoken with people across campus, his viewpoint had changed. He appreciated the genuine interest people expressed in him, as well as the “gorgeous campus.” He decided to give Central a try.

A general studies major, Weaver spent a lot of time on the stage while at Central. He participated in A Cappella Choir, Chamber Singers and Vocal and Instrumental Combos, as well as Campus Ministries. Some of his favorite memories from college include the opportunities he had to travel with ensembles, as well as his semester spent studying abroad in London.

After graduating, Weaver worked as a worship coordinator for Lutheran Church of Hope in West Des Moines for three years, then he spent some time in Iowa City. But the music kept calling, and in December 2014 he moved to New York to pursue his dream of singing. He’s been singing at clubs and cabarets across the city, as well as a weekly karaoke show frequented by celebrities like Kelly Ripa.

Weaver’s hard work is paying off—he recently signed a recording contract with a house music label based in Italy. And last October, Weaver toured Columbia with New York’s Harlem Jubilee Singers. He says the speed of his success is “kind of surreal, but it’s also kind of awesome.”

Weaver says his vocal style is best described as soul. “I believe when you get onstage, you do it not just for you, but for everyone in the audience,” he says. “You sing from your heart.”

Starbucks Scientist Uncovers Food Secrets
by Cindy Deppe

Coffee is a driving force in Brian Schaneberg’s life. Working in the area of scientific and regulatory affairs for Starbucks, the 1995 Central graduate leads a team of 18 scientists who assure regulatory compliance of labeling, nutrition and international standards for beverage and food products for the international company headquartered in Seattle.

“This is surprisingly creative work,” Schaneberg says of the position he’s held for nearly three years. “We work with all cross-functions of the business — from marketing and product development to food safety and packaging.

“My job is to bridge science and business. That’s what drives me. I’ve always been curious about ‘how does it work?’ As a scientist, you are always asking questions and finding answers. Although I am not professional in these fields, I get to play in the health field in this job — asking ‘what is beneficial about coffee?’ — and I get to play in the field of regulation — asking ‘what’s right?’ in meeting guidelines and laws.”

When the Dietary Guidelines Advisory Committee came out in favor of daily coffee consumption, few could have appreciated the findings as much as Schaneberg. “This conclusion by the committee further supports the results being reported in the peer reviewed scientific literature. But our work requires more expertise than just coffee — there are teas and juices on the menu, too.”

Schaneberg’s interest in natural products began on campus with adviser Dan Bruss, former chemistry professor. “Dr. Bruss was big into plant use and natural products for drug discovery. When I was looking for summer research opportunities during my junior year, he connected me with a program at Virginia Commonwealth University (VCU) that focused on plants and natural products. I worked at VCU the summer before my senior year on a plant-based research project.”

When Schaneberg came to Central from Rochelle, Ill., he was on a path to engineering school. But his interest in the 3D visual nature of organic chemistry led him to change his major to chemistry and his minor to biology during his first semester. He completed his Ph.D. at VCU in 2000, where he studied the isolation and elucidation of possible therapeutic drugs while always digging further into the folklore of plants, or the history and stories behind plant populations.

“Plants have a certain tradition in certain cultures and areas of the country and world,” Schaneberg says. “Reading about and learning about what those stories are and what’s used for medicinal purposes is an important field of study.”

Schaneberg continued his plant-based research in a post-doctoral program at the National Center for Natural Products at the University of Mississippi, where he worked on development of methodologies to identify plants for drug use.

During the next decade, Schaneberg worked for two top natural products research companies — ChromaDex and Mars Botanical, the scientific arm of the famous candy brand. At Mars, Schaneberg helped to develop and bring to market the company’s first dietary supplement, CocoaVia.

Brian Schaneberg ’95 began his research on plants while at Central.
